The previous three (3) conferences brought together the pharmacy profession, stakeholders and Council to engage in deliberations on solutions to challenges facing Pharmacy and the broader healthcare system. Conference resolutions have also contributed to policy positions and have guided the shaping of education and training, the practice environment, research and Council's own regulatory frameworks.

Chiefly, the work undertaken in the previous years has helped position Pharmacy to contribute meaningfully to the health system envisaged in the National Development Plan (NDP) and the United Nations Sustainable Development Goals. To this effect, Pharmacy continues to play an important role as a responsive collaborator in the South African healthcare system and as a catalyst for meaningful impact in the advancement of public health.

The conference programme is rich with plenary sessions, best practice sessions, Good Pharmacy Practice (GPP) guidance, sessions on the latest research in pharmacy, and policy deliberation

sessions, amongst others. Furthermore, we have negotiated favourable rates with accommodation providers within the vicinity of the Durban ICC. These details and the online registration form can be accessed at www.sapcconference.co.za.

Registration is filling up quickly, with only a few hundred delegate seats remaining! Register today to avoid disappointment.

We look forward to welcoming you to the Durban ICC for the 4th National Pharmacy Conference.

Yours faithfully,
