

Dear Pharmacist,

SAPC e-Note: CHANGE OF DESIGNATION TO NON-PRACTISING

Kindly receive the attached letter confirming the change of your designation from a Practising Pharmacist to a Non-practising Pharmacist due to non-compliance with Continuing Professional Development (CPD) requirements for 2020. Council did not accept your reasons for non-compliance with the 2020 CPD requirements. This change means that you may not practise any acts pertaining to the scope of practice of a pharmacist.

Should you wish to continue practising as a pharmacist, please complete the attached application form to request for your designation to be changed from non-practising to practising.

Yours sincerely,

VM Tlala
Registrar/CEO
